Senator Lauds Echols For Narcotics Work

United States Senator Thomas J. Dodd of Connecticut has given high praise to Yuma County Sheriff Lee Echols for his work in the current narcotics investigation.

Sen. Dodd, who spoke to a Freedom Forum in Yuma earlier this year, is chairman of a Senate subcommittee to investigate juvenile delinquency. The narcotics traffic has been a part of the committee's investigation.

Last month Sheriff Echols testified before Sen. Dodd's committee in Washington. "Our recent hearings to which you were subpoenaed to testify were very successful," Sen. Dodd has written to the sheriff, "and I know that a great deal of the success should be shared by you. The help you have given us over the past three years has been of inestimable value in enabling us to determine the nature of the illicit drug traffic both in this country and in our neighboring countries to the south."

Echols, who had long experience as a U.S. Customs agent before becoming sheriff, also led narcotics investigators into Mexico, and this assistance also is recognized by Sen. Dodd. "I would like further to commend you," he said, "for your role as a consultant to this subcommittee in leading a team of investigators into the Republic of Mexico to determine the areas where opium-producing poppy fields are in existence and where and how narcotic smuggling originates.

"This was a hazardous mission," continued Sen. Dodd, "and your sacrifice of time and energy will, I am sure, reap great rewards when we present your findings and those of our other witnesses to the present administration. The citizens of Arizona, and of Yuma County in particular, should be proud to have such a dedicated and faithful servant to this country and to your state."

Sen. Dodd concluded by saying that his committee would continue to ask for Sheriff Echols' expert advice and knowledge.

Expenses for Echols' work were borne by the Senate subcommittee.

Candidates of Calif. Issue Statements

By United Press International

Statements from leading candidates in the primary election:

Richard M. Nixon: "This primary has shown the strength of the Republican party. We have fought a good fight. I have every confidence that I can unite the Republican party with my program. We will go forward to a great victory in November. We will be joined by hundreds of thousands of Democrats who will not desert their party but who realize their party has deserted them."

Joseph C. Shell: "The question has been asked, will you now support Richard Nixon? Actually that decision rests more with him than with me. I stand firm for certain principles of government. I believe in and I have made definite commitments to the people of the Republican party and to the people of the state. I will support any candidate who through his actions as well as words will espouse these principles and will endorse these commitments. If I had debated Nixon on television I could have won because I presented people with a choice. The people of California definitely want a choice between a Democrat and a Republican."

Edmund G. Brown: "It will be a hard, tough fight in November but with our record behind us and the future before us, we will win." Brown added he did not try to run up a big vote in the primary. "I wanted to get our record before the public," he said. "Our water program, our educational projects. . .these are the things I've been trying to sell."

Sen. Thomas Kuchel: "The people of my party have spoken and spoken convincingly, and I am profoundly grateful for their confidence. They have demonstrated that they want a Republican party in the Lincoln tradition dedicated to freedom, progress and equal opportunity under law for all Americans."

Church Gets Rezoning

The Yuma Planning and Zoning Commission has okayed use of property at 125 10th Avenue for church services.

The area was previously zoned in such a manner that the Good News Missionary Baptist Church could operate only with difficulty. Several city blocks were affected by the zoning alteration.

The church has been using the property since mid-April. According to Mrs. Evelyn Lynch, church clerk, Good News plans to expand into property adjoining its present building when that property becomes available. New facilities would be used for Sunday school classes.

President Woodrow Wilson called the first meeting of the League of Nations in 1920.

GOLDEN BANTAM — With the opening of the S & H Packing Co. corn packing shed at Bard, a new industry opens for the Yuma district. This is the first full-scale corn operation here, processing the crop from about 400 acres. The corn, here shown going up a draper on its way to packing tables, is shipped out in iced trucks to Los Angeles markets as fresh roasting ears. The corn is sorted by hand, then goes through an ice water bath before being crated. The operation here is under the supervision of Wayne Brand and Guy Curry, representing the S & H Packing Co. Drop of 900,000 Bales Estimated In Cotton Consumption This Year

By GAYLORD P. GODWIN
United Press International

WASHINGTON (UPI)—The Agriculture Department today estimated cotton consumption during the 1961-62 marketing season at about 14 million bales, about 900,000 bales below last season.

This decline is likely, the department said in a review of the cotton situation, because the drop in cotton exports is expected to more than offset a prospective increase in domestic mill consumption.

The department estimated the supply of cotton for the current season at 21.7 million bales, down 400,000 bales from 1960-61. This would provide a carryover on Aug. 1 of about 7.7 million bales, up 500,000 bales from the carryover a year earlier.

Domestic mills will use about 9 million bales during the 1961-62 season, compared with 8.3 million bales the previous crop year. The department said mill consumption is greater than a year earlier primarily because of a higher level of economic activity this season compared with last.

Exports of cotton during 1961-62 are expected to total about 5 million bales, about 1.6 million bales less than exported last season.

The smaller exports are related to a working down of stocks and estimated smaller consumption in the foreign Free World.

The average price received by farmers for all kinds of cotton from the 1961 crop to April 1, 1962, was 32.8 cents a pound. This is 2.5 cents more than the price in 1960, and, with the exception of 1958, is the highest average price received by farmers since 1954.

The value of lint cotton of the 1961 crop of 14,316,000 bales was $2,348,000,000, up 9 per cent from 1960 and the highest since 1955. The combined value of lint cotton and cottonseed was about $2,653,000,000, about 10 per cent higher than the total value for the 1960 crop and the highest value since 1953.

The government's investment in price-supported commodities totaled $7,183,657,405 as of April 30. This was about $221.4 million less than the investment a month ago.

The investment was made up of $4,722,930,978 in commodities owned outright by the Commodity Credit Corp. and $2,460,726,427 is outstanding on farm products still held by producers.

On the same date a year ago the investment was $7,427,918,532.

Wheat continued to be the top item in the investment. The government owned outright 1.17 billion bushels valued at $2.3 billion and held loans totaling $147.4 million on 82.6 million bushels.

The department has asked the food industry to promote increased use of eggs during this period of heavy production.

In a wire to grocery, restaurant and other food service organizations, Undersecretary of Agriculture Charles S. Murphy said that wholesale prices are currently about 10 cents per dozen below a year ago. Ample supplies of high-quality eggs provide an excellent opportunity for accelarated merchandising of this nutritious food, he said.

Prospects Good For Stocks Rise, Traders Believe

NEW YORK (UPI) — Traders expressed cautious optimism today over the prospect of an upturn in stock prices.

Gains by leading issues in the final half-hour of trading Tuesday and news from the U.S. Commerce Department that April business sales reached record highs encouraged some Wall Street observers.

One analyst said buyers needed only a "little encouragement" to pull the market out of its recent slump.

Tuesday's late rally after a see-saw start brought the Dow Jones industrial averages and Standard & Poor's 500 leading stocks above Monday's close. Volume was 6,140,000 shares and left more issues with losses than gains, 55-1507.

Shows No Influence

Traders did not appear to be influenced by Treasury Secretary Douglas Dillonts speech Monday night in which he said the Kennedy administration planned "top-to-bottom" tax cuts in 1963.

Most of the price changes were in parts of a dollar, even for relatively high-priced shares. Monday's loss in dollar values was not regained, however.

The New York Stock Exchange announced it will begin an investigation into three of last week's most hectic days of trading—Monday, Tuesday and Thursday. About 35 million shares exchanged hands during the sessions.

Exchange president G. Keith Funston said the study would require three weeks to complete.

Aid To Public

"This survey should provide the public with a comprehensive picture of market activity during a period when unusually heavy volume and price movement focused widespread attention on the market place," Funston said.

The last such survey made by the exchange came after President Eisenhower's heart attack in 1955, which sent prices plunging.

The ticker tape fell 34 minutes behind floor transactions shortly before 1 p.m. It picked up later and was only three minutes behind at the close.

Fire Station Termites Will Be Given Attention

Bids from three firms have been received by the City Council for termite control at the city's three fire stations. All were presented to the council by Fire Chief Bernard Raebel and will be studied by him before awarding of a contract.

At the last Council meeting, Raebel reported that termites had infested the stations. He was directed to obtain bids on control.

Submitting offers were Arizona Termite and Pest Control, $360 for all three stations with a three year guarantee: Terminix Co., $692 for No. 1 and No. 3 stations plus $83 per year for inspection; and Valley Termite Control, $530 for Station 1 and Station 3, plus $20 per year for return inspections. All are firms with local offices. The latter two firms reported they could find no infestation in Station 2.

Chief Raebel was instructed to determine what services each firm would perform and how the job would be done. Contract will be awarded on the basis of best protections as well as cost.

SOMETHING'S COOKING
DOXOL

LET'S GO CAMPING!

As the final bell marks the end of another school year, families all over America are saying, "Let's go camping!"

This year a record number of folks will pile sleeping bags and cooking pots in the family car for a vacation under canvas in our woods and open spaces.

If you're lucky enough to find a spot in a regular campground, ordinary precautions with fires will do. But thousands of families will have to set up camp in *undeveloped* areas.

If you are one of these families, SMOKEY asks you to follow these rules to prevent forest fires:

1. Locate your fireplace in a circle of bare earth. Build up rocks or dig a shallow hole to enclose your fire.
2. Keep your fire small—and put it *dead out* when you leave.
3. Fill campstoves and lanterns in an area cleared to bare earth.
4. Soak used charcoal with water and bury in cool damp earth.
5. Sit down to smoke—clear a place for hot ashes, matches, and cigarette stubs.

Remember - only YOU can PREVENT FOREST FIRES!

Castro Schoolmate To Speak Here

A former schoolmate of Fidel Castro, Dr. Tirso Del Junco, now a Los Angeles surgeon, will address the Yuma County Freedom Forum June 14th.

Dr. Del Junco will discuss the possibilities of Castro's Cuba setting off World War III. Topic of his principal adress will be "Castro, Russian Agent for 17 Years." He will speak at 8 p.m. at the Stardust Hotel.

The doctor studied medicine at the University of Havana when Castro was there studying law in the 1940's. He is a native of Cuba but has been a resident of the United States since 1949. He lives in Pasadena with his California-born wife.

Dr. Del Junco has been active in a Cuban anti-Communist organization and was a member of the Cuban Army of Federation.

Last speaker to the Freedom Forum was Sen. Thomas Dodd in March. The Forum was founded last winter to bring to Yuma authorities on the threat of communism. Financial support comes from admission fees. Officers are Jim Baxter, chairman; Dr. Roy Evans, associate chairman; Joe. L. Green, secretary; and Walter Johnson, treasurer.

Traffic Council Is Expanded

PHOENIX (UPI) — Gov. Fannin's Traffic Safety Coordinating Council expanded Tuesday, and its members made plans for a series of August Workshops.

The body was enlarged to include representatives of the League of Cities and Towns; county supervisors and clerks; and associations for sheriffs and county attorneys, magistrates and city constables, and justices of the peace.

The tentatively planned workshops will be held in five Arizona communities.
