Market Movement

By VICTOR RUBANK

NEW YORK, Feb. 5. (AP)—Further weakness of commodities was reflected in another slide for stocks today with the market average touching a new bottom since last June.

Dealings, active in the forenoon, quieted somewhat after midday as mild recovery attempts were managed. While extreme losses were reduced here and there near the close, recessions of fractions to 3 or more points maintained a wide majority with virtually all groups affected. Transfers ran to around 1,200,000 shares.

Conspicuous on the downside of the day, a number at 1947-48 lows, were U. S. Steel, Youngstown Sheet, Bethlehem Steel, Chrysler, General Motors, Goodyear, Goodrich, U. S. Rubber, Allied Stores, International Harvester, Deere, J. I. Case, United Aircraft, Schenley, American Woolen, International Paper, Eastman Kodak, Johns-Manville, Union Carbide, DuPont, Dow Chemical, Westinghouse Electric, American Smelting, Warner Bros., Gulf Oil, Standard Oil (NJ), Union Pacific, Southern Pacific and Santa Fe.

Aside from diving grains and other staples, a certain amount of liquidation was attributed to the thought that additional anti-inflation steps might be taken by the administration. Wall Street pessimism also stemmed from doubts regarding taxes, labor, mounting corporate costs, growing consumer resistance, generally business prospects and the likelihood that American trade eventually would be hit by unsettled European currencies. There was talk of French liquidation of U. S. securities by those desirous of taking advantage of the devalued French franc.

Bonds trailed with stocks. Cotton futures, toward the finish, were above the day's lows but still off $1.05 to $2.05 a bale. At Chicago wheat and corn ended down the permissible limits of 10 cents and 8 cents a bushel, respectively. With the exception of the September and December contracts, oats also were off the limit of 6 cents.

In the curb Patchogue-Plymouth dropped 10 points on a 10-share trade. On the offside were Salt Dome Oil, Louisiana Land, Brown-Forman Distillers and American Gas. Kaiser-Frazer remained a lively performer but held to a narrow range.

Holders of petroleum securities scanned the figures of the American Petroleum Institute which indicated that supplies of light fuel oils declined 1,822,000 barrels in the week of Jan. 31 to a total of 40,580,000. The aggregate last year at this time was 46,197,000 barrels.

Followers of the motors noted the R. L. Polk & Co., review which said that, according to December statistics from 37 states, it was probable that registrations of new passenger cars in 1947 were slightly above 3,141,000 with trucks numbering about 880,000. This would compare with 1,815,196 passenger vehicles and 626,249 trucks in 1946.

Cotton

NEW YORK, Feb. 5. (AP)—Cotton futures declined today on recurrent flurries of liquidation and hedging, influenced by further weakness in grains and other markets. Losses at one time extended to more than $3 a bale. Prices later recovered more than $1.50 a bale from the lows of the day, but again sagged in late dealings on renewed commission and New Orleans offerings.

The confidence of traders was shaken by uncertainty over the general trend of commodity prices, lagging export markets, and the lack of buyer interest in textiles.

Late afternoon prices were $1.50 to $2.00 a bale lower than the previous close. March 33.27, May 33.29 and July 32.80.

Cotton futures developed a firm tone in late dealings and persistent mill buying and short covering met a scarcity of offerings. Prices rallied into new high ground for the day, although they slipped partially on a closing flurry of hedging.

Futures closed 50 cents to $1.05 a bale lower than the previous close.

Aged Bootblack Is Accused Of Murder

YUMA, Feb. 5. (AP)—The Yuma county attorney's office Thursday issued a complaint charging James Franklin, 75-year-old Negro bootblack, with the murder of Deputy Sheriff Walter Akers at Parker Tuesday night.

Lewis Ingraham, deputy county attorney, said the complaint would be filed in justice court here during the day.

Akers was fatally wounded by a shotgun charge as he answered a call to the Parker railroad station to arrest an intoxicated man who had threatened a trainman with a gun.

A coroner's jury named Franklin as the killer.

Grain

By WILLIAM FERRIS

CHICAGO, Feb. 5. (AP)—For the second consecutive day all grains, as well as soybeans and lard, broke the limits permitted in a single session on the board of trade today.

Wheat was down 10 cents, corn and soybeans 8 cents, oats 6 cents and lard $2.00 a hundred pounds.

At their bottoms, losses in wheat ranged from 32¼ to 40⅜ cents from seasonal high levels, in corn from 28¾ to 30¾ cents, in oats from 17½ to 23 cents, in soybeans from 71 to 72½ cents and in lard from $7.72 to $8.13 a hundred pounds.

In most grain contracts the seasonal peaks were made on Friday, January 16. The peak on May wheat, however, was made Nov. 28, 1947, while that on May oats was established Jan. 23. The peaks in lard were made Nov. 26, 1947, while those in soybeans were scored on Jan. 15 and Jan. 16.

Prices opened on sharp declines today. A small-scale rally then developed. It was followed by a selling wave about midway in the session, sending quotations down to their daily limits. Every now and then a sale was made above those limits in oats and lard, but no real rally developed.

Brokers attributed the decline to the same forces as were operating yesterday—heavy liquidation through commission houses meeting an extremely limited amount of new buying.

The break caused a considerable expansion in offerings of cash corn by the country. Dealers reported they had purchased more than 300,000 bushels of corn on a to-arrive basis before the market closed.

With the exception of September and December oats, everything closed at the bottom. There were numerous unfilled selling orders in the wheat and corn pits.

May wheat closed at $2.06¾, May corn $2.31⅝, May oats $1.06¾, March soybeans $3.70 and March lard $21.15.
