ARIZONA SENTINEL.

Yuma, Arizona

WEDNESDAY, APRIL 3, 1901.

Our old-time friend, Matt Perry, of Gila City is in attendance at court.

L. B. Clark, one of the big ranchers of the Gila valley, was in town yesterday.

Col. Geo. Chaffey, general manager of the Imperial Land Company, is in Yuma this week.

Mrs. M. C. Levy arrived in Yuma on Friday night's train from Los Angeles, and will remain in the city for a couple of weeks.

Johnny Rimpau not only has the prettiest lady clerk, but the handsomest show window in Yuma. Johnny's skill as a window dresser is superb.

Col. J. S. Spear left last Thursday night for Washington to confer with the Interior department in the interest of the Yuma Indians. Capt. Vaughan will be acting superintendent of the Indian school during Col. Spear's absence.

The school election last Saturday resulted in the election of Geo. H. Miles as trustee of District No. 1. The election was very quiet. There were two candidates in the field. J. E. Devine and Mr. Miles, and the vote polled was small.

Mr. and Mrs. D. A. Lindley of Sacramento are still in the valley. Mr. Lindley is the owner of an extensive hog ranch in the Gila valley, near Mohawk and Palomas. Mr. Lindley is a gentleman of means and enterprise. Just the sort of man whose interest in the community is most desirable.

M. A. Martin, who has been at Benson the past month, has returned to his desk as chief clerk in the S. P. freight office. Mr. Martin is one of the most popular attaches on the Gila division and his many friends are pleased that he has returned.

Helen, the little daughter of Mr. and Mrs. James Milton, died last Thursday evening at 6 o'clock and was buried on Friday afternoon in the Protestant cemetery. The bereaved parents have the sympathy of their many friends in the sad bereavement.

Mrs. Herbert Brown gave a party at her residence on the hill last Thursday night in honor of her neice, Miss Pearl Seeley, of Tucson. Miss Seeley has been visiting Mrs. Brown for the past two weeks and has made friends of all who have met her.

The Southern Pacific railroad company has just had completed the pit and foundation on which will be placed an immense tank to be filled with oil fo be used for fuel on engines. Tanks of the same capacity (one million gallons) will also be put in at El Paso, Tucson and Lordsburg.

Col. Charles Ballance, father of Hon. Burt Dunlap, arrived in Yuma last week from Peoria, Ill. Col. Ballance is a man of wealth and his hobby is hogs. He has bought a large tract of land in the Colorado valley, which he intends to convert into a hog ranch, where the finest porkers will be raised for the market.

Frank King, who is here from Tucson attending court, made the Sentinel office a pleasant call last Friday. Frank used to be a newspaper man himself, having been at one time editor and proprietor of the Nogales Vidette. He is out of the newspaper field now and is engaged in the real estate business in Tucson and we are pleased to learn he is making a financial success of it.

The Arizona bakery and restaurant sells bread, pies and cakes, soda water, ice cream and ice cream soda and cold drinks. Serves all kinds of lunches, hot or cold as desired for 10c. and up. From 12 to 3 o'clock every day we serve dinner at 25c. As to the cooking we claim that it is positively the best in town. Not only better than the Chinaman's, but better than any other American cooking in Yuma. Come and try us a few times or ask our contented boarders if it is not so.

Dr. W.T. Heffernan, one of the directors of the Imperial Land Company, arrived in Yuma Tuesday evening, for the purpose of making arrangements for the reception and entertainment of the California editors, who will visit this locality next Monday and Tuesday. It is understood that the citizens of Yuma will co-operate with the officials of the land company in this matter, and to the end that the newspaper men may be hospitably entertained during their visit in the city.

Strength comes from well digested and thoroughly assimilated food. Hood's Sarsaparilla tones the digestive organs, and thus builds up the strength. If you are getting "run down," begin taking Hood's at once. It gives nerve, mental and digestive strength.

Yellowstone and Monogram whiskies at The Ruby.

Babbitt metal for sale at the SENTINEL office.

For a fragrant smoke the El Universo can't be beat. The Wigwam keeps 'em.

Try the El Universo cigar—for sale at The Ruby.

Shorey has just received a new line of Ralston Health Foods..

El Universo is the favorite cigar of Yuma. For sale at the Old Plantation.

Drop into The Gem when you want a satisfactory smoke and try El Universo.

Domestic and imported cigars at Cotter's drug store.

Electric belts that produce electricity at Cotter's drug store.

All kinds of commercial priuting done in correct style at the SENTINEL office.

Rye bread and graham bread at the Arizona Bakery.

Firemen, Attention!

Your attention is called to the quarterly meeting of the Yuma Fire Department which will take place next Monday evening at 7:30 o'clock. It is greatly to be desired that all firemen attend.

W. H. SHOREY,
Sec'y Yuma Fire Department.

Still More Counterfeiting.

The Secret Service has unearthed another band of counterfeiters and secured a large quantity of bogus bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitters, which has many imitators but no equals for indigestion, dyspepsia, constipation, nervousness and general debility. The bitters sets things right in the stomach, and when the stomach is in good order, it makes good blood and plenty of it. In this manner the bitters gets at the seat of strength and vitality, and restores vigor to the weak and debilitated. Beware of counterfeits when buying.

Hart Will Hang.

Thomas Hart, the slayer of Under Sheriff Matt. De Vane, has been convicted of murder in the first degree, and will be sentenced by Judge Street on Friday, April 5. The murder of Under Sheriff De Vane was cold-blooded, merciless and unprovoked, and the verdict of the jury is righteous and just. Hart is an athletic, broad-shouldered man, with nerves of steel. In all probability his coolness will be maintained till the rope stretches his neck.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & Co.,
Toledo, O.

Sold by druggists, 75c.
Hall's Family Pills are the best.

Cannon Pleads Guilty to Manslaughter--Only a Year in the Pen.

The Jury in the case of Thos. Cannon, who was on trial for the murder of Hugh Gallagher last December, after being out forty-eight hours, failed to agree, and were discharged by Judge Street, Monday at noon. This morning Cannon, with the consent and advice of his attorneys, was permitted to enter a plea of guilty to manslaughter, and Judge Street sentenced him to one year in the pen. Cannon murdered his friend, Hugh Gallagher, in December last. The circumstances of the crime were most horrible, but apparently whisky has been recognized as the instigator and responsible agent in this revolting murder, and Cannon gets off easy. Comment is unnecessary.

Strikes a Rich Find.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed. For sale at Cotter's drug store.

District Court--Cases Disposed of.

C. H. Mauk, indicted for receiving stolen property--nolle prosequi entered by district attorney; case dismissed, there being no evidence against Mr. Mauk.

Martin Chavilla, assault with deadly weapon—convicted; sentenced to two years in the penitentiary.

M. Molina vs. John Stoffela—case submitted on records.

J. M. Speese, admr. Vomicil estate, vs. Gandolfo & Sanguinetti—judgment for defendants.

Territory vs. Ochoa, seduction—nolle prosequi.

Isaac Noriega vs. Minerva Noriega—divorce granted.

J. W. Dorrington vs. Yuma county—submitted on statement of facts by both parties.

Francisco Carabajal vs. Clara Carabajal—divorce granted, the mother to retain child.

J. W. Dorrington vs. Mary Ryan, to quiet title—judgment for plaintiff.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three $1 bottles of Dr. King's New Discovery wholly cured me and I gained fifty-eight pounds." It's absolutely guaranteed to cure coughs, colds, la grippe, bronchitis and all throat and lung troubles. Price 50c and $1. Trial bottles free at Cotter's drug store.

Editors Coming to Yuma.

Next Monday night at 10:30 p. m. some twenty-five of the editors of California newspapers will arrive in Yuma from Los Angeles. The special object of their coming is to visit the heading of the Imperial canal and the land on the desert to be irrigated by this canal. This they will do and the impressions of what they observe will find expression in the papers they represent. But they will also devote considerable attention to Yuma and its surroundings in the tributary valleys, notably, the Irrigation, Land and Improvement Company's canal, and the land it covers. They will also visit Yuma Heights, the Fort Yuma Indian school, and perhaps other places of interest to which their attention may be directed.

Now, the coming of a lot of neighboring newspaper men into a town is no unimportant matter—for the town. It can be made advantageous or disadvantageous—just as you please. Yuma should "brush up" and receive these California pencil pushers "right royally." A collection of editors is just like the average human—you treat them well and they will treat you well. As the city has no board of trade, the city council should take this matter in hand, and see that proper arrangements are made for the reception and entertainment of the editorial visitors during their stay in Yuma.

Following is the itinerary of the excursionists after reaching Yuma:

On the morning of the 9th the party will take a steam launch down the Colorado river to the head of the Imperial canal, and down the canal to the lower headgates, where lunch will be served, after which they will cross the river at Hanlon's, where carriages will meet the party and convey them up through the valley, taking in Yuma Heights and other points of interest, returning to Yuma in the evening where they will remain for the night. Tuesday morning the journey will be resumed and the party will take the train for Flowing Wells, where they will take breakfast and then take stages for the town of Imperial.

A Horrible Outbreak

Of large sores on my little daughter's head developed into a case of scald head, writes C. D. Isbill, of Morgantown, Tenn., but Bucklen's Arnica Salve completely cured her. It's a guaranteed cure for eczema, tetter, salt rheum, pimples, sores, ulcers and piles. Only 25c, at Cotter's drug store.

Advertised Letters.

List of letters remaining unclaimed in Yuma postoffice, week ending April 3, 1901:

Bustillos, S.	Balla, Bartolo
Collins, Manuel	Gerru, F. & B.
Hernandez, B.	Hernandez, A.
Kirkpatrick, J.L. Dr	Morales, M. J.
Murrietta, M.	Magdalena, P.
Mastas, P. Sra	Raymond, C.
Ramirez, A.	Vaughan, T. P., 2.

Persons calling for above letters will please say "advertised."

R. H. CHANDLER, P. M.

A Widow's Love Affair

Receives a setback if she has offensive breath through constipation, biliousness or stomach trouble, but Dr. King's New Life Pills always cure these troubles, clean the system, sweeten the breath, banish headache; best in the world for liver, kidneys and bowels. Only 25c, at Cotter's drug store.

THE COLORADO VALLEY.

The Future Stock Country of the Southwest.

It embraces a million acres of land accessible to the unlimited waters of the Colorado river, including the Colorado desert covered by the Imperial canal, the broad valley of the Colorado river extending 100 miles above Yuma and west to the Gulf of California. It is the home of alfalfa, hogs and cattle. It is no longer a question of its mere capabilities and future greatness; the facts are appreciated by the far seeing practical business men and capitalists of the country. The best and most enterprising have come to the scene of action and with the utmost confidence in the future financial results are investing their money by tens and hundreds of thousands of dollars.

The Imperial canal, 40 by 100 feet, and length of 200 miles, on the northwest side of the river; the Palomas colony with its great canal, alfalfa fields, cattle and hog farms, seventy-five miles above Yuma; the Ludy canal; the Farmers' canal, and American canal, for the benefit of Colorado valley and the lands south of the Mexican line to the gulf of California, and as evidence of confidence of the golden future of the country, citation is given to the recent acquisition of such business intellect as possessed by Col. Ballance and the Honorable Burt Dunlap.

On Friday of last week two car loads of high-bred hogs arrived in Yuma for the Dunlap ranch, having been shipped direct from the great blooded stock farm of Finch & Sons, near Oxford, Ohio. The Dunlap ranch is a recent purchase by Hon. Burt Dunlap and his father-in-law, Colonel Ballance, late of Peoria, Ill. These gentlemen propose to make it a model stock ranch, and as the shipment referred to above indicates, they will go extensively into the business of raising blooded hogs, as well as cattle. The porkers from Ohio are Poland China and Duroc or Jersey Red, and are fine specimens of the genus swine. The Dunlap ranch is an improved tract of 320 acres six miles west of Yuma in the Colorado valley, formerly owned by Mr. Randolph, and is an ideal place for a stock ranch.

The Arizona bakery meals are just as cheap as the Coolie meals and far superior in flavor and quality. Make Yuma a decent American town by supporting an American enterprise.

WATER COMPANY'S "NERVE"

Is Much Superior to Its Fire Service. Thinks the Sentinel's Censure Unjust--Shifts Blame on Volunteer Fire Department.

"WOULDN'T THIS JAR YOU?"

"A Word in Defense." etc., etc.

"To the Citizens of Yuma:—The Sentinel takes it upon itself at all times, without a proper investigation, the duty of criticising the Yuma Water and Light Company's fire service. We object to the blame for the lack of water pressure at the recent fire, referred to in this week's issue of the Sentinel, being put on our company, for it was at once proved by attaching a hose to the hydrant at the corner of Main and Second Streets that the full pressure was available, for a hose stream was thrown over Mr. Sanguinetti's store, by reservoir pressure alone, the pump at the power house not having been started.

"The lack of pressure came from mud in the hydrant pipe line, which had not been flushed out for months. The hydrants are leased to and are under the care of the department, and should be flushed out weekly. * * * While it is not our duty to attend to the flushing of hydrants, we shall in the future attend to it in order that it may not be again overlooked. If the Sentinel would only make a fair investigation before it assumes the position of judge and critic, it would get nearer to the facts and not do us so much injustice.

"H. W. BLAISPELL, Manager.

The above, which was printed in the Sun last week, is a feeble attempt to defend or extenuate the water company's almost criminal negligence as regards the so-called fire service as furnished to the city of Yuma, which every man, woman and child in the town knows has never been of any earthly account in time of a fire.

It will be noticed that Mr. Blaisdell does not attempt to deny the Sentinel's charge of the insufficiency of the water pressure at the recent fire, but attempts to throw the responsibility for hydrants being clogged (with tar, mud, or what not) upon the shoulders of the Yuma volunteer fire department. His statement that the hydrants are leased to and under the care of the fire department, and that it is their duty to see that the pipe lines and hydrants are flushed out and kept clear, is absurd. The Yuma fire department is composed of a body of men who give their time and efforts to saving property whenever there is a fire, absolutely free. They get no remuneration for their services, and we must say that when they have a chance they do noble work, as was evidenced by the Post house fire. The contract for water service is between the company and the city of Yuma, and not with the volunteer fire department; and there is nothing in the charter requiring the city to flush the hydrants, or keep the line clear of mud, tar or any other substance. The Yuma Water and Light Company has contracted to furnish efficient fire service, and this duty as a matter of course devolves upon that company.

The trouble has always been with Mr. Blaisdell's water company that its great efficiency was always absent when a fire broke out, but after the property was destroyed, then the water pressure was demonstrated to be ample. The fact that the pressure was sufficient the day after the fire to throw a stream over the moon might be interesting to the spectators, but mighty poor consolation to the fellows who were burned out the day before because there was no water pressure.

The SENTINEL could perhaps feel more charitable about the matter if the Post house fire was the first exhibition of inefficiency on the part of the water company. But there are others. First the big fire on the west side of Main street, between First and Second, about three years ago. Thousands of dollars went up in smoke because there was no water. Second, the Gandolfo building burned and six persons perished in the flames. No water. Third, in July, 1900, a whole block destroyed by fire on the east side of Main street. No water. Fourth, the recent fire, March 22nd, when two houses would have been burned instead of one had it not been for the Southern Pacific switch engine.

For the manager of the Yuma Water and Light Company to insinuate that the SENTINEL is unjust in its criticism is not the truth. The SENTINEL is more inclined to praise than to criticise. It always desires to give credit where it is due, and would be proud to chronicle the news that Yuma's water service was second to none in efficiency and would take great pleasure in doing so if the facts justified it; and we earnestly hope both for the credit of the town and water company and for the sake of lower rates of insurance and safety for property that we may yet be able to publish this as a happy truth. To show that the SENTINEL is not alone in its criticism we would respectfully refer Mr. Blaisdell to the report of the late grand jury on this water question, and trust that the company will profit by reading it carefully.

The SENTINEL certainly has good cause for "criticism" of this company, because through its inefficiency, negligence, or whatever it may be termed, the office has not only suffered in a financial way, but also in the loss of invaluable records which money could not replace.

Go to Geo. Paxton's store and get all kinds of fruit, vegetables, cigars, tobacco, bread, cakes,, pies, etc. Quick sales and small profits is my motto.

Lovely cream puffs, fresh every other day at the Arizona Bakery.

El Universo, best cigar in Yuma for the money. At The Exchange.

The pen that always writes and never blots at Cotter's drug store.

Brush Up Your Yards and Lawns.

Yuma is to have some twenty-five visiting newspaper men to entertain for a short time next Tuesday, and it is hardly necessary to say more than this as an inducement to property owners to polish up their front and back yards and brighten things generally, so that as favorable an impression as is possible to create will be made upon the editors, for obvious reasons. These gentlemen are coming here to see the country and will write their observation for their papers from the standpoint of the impressions they receive. Let the impressions of Yuma be favorable ones.

The Grand Jury.

The grand jury made its final report Monday and was discharged, having been in session for seven days. The report appears in this number of the SENTINEL, and covers a great deal of ground which has heretofore been neglected, or overlooked; but which is certain to result in good. Their recommendations, for further investigation into certain public affairs are timely, and shows that the jury was composed of men who have the welfare of the community at heart, both morally and financially. The jury was composed of representative men from different sections of the county and was one of the best ever empaneled. A great number of indictments were returned for various offenses, and it is now up to the district attorney's office to see that they are prosecuted.

News From Kofa.

Kofa, Ariz., April 1, 1901.

Everything has been unusually quiet in our most times lively camp for the past month. Many of the Miners have been leaving, alarmed for their gentle constitutions by reports of the fearful hot weather that is always going to come next week. We don't wish the boys any bad luck but a rolling stone never gathers moss you know and they may go farther and fare worse.

Will Allen has been appointed deputy constable under Pete Burke, who has been too ill to attend to active duties lately.

Reese Thomas, who was for a long time employed at Deep Well, came over from Dome Friday. Mr. Thomas has resigned his position as engineer with the C. D. M. & M. Co., and will accept a similar place at the Senator mine above the Pot Holes on the Colorado river. Wherever he may go, "Poney" will find many friends.

Miss Lottie Lewis reports only three more weeks of school for Kofa. It seems that a district with about forty-five resident children of school age, might have a longer school term than we are getting.

Constable Burke and family expect to leave early this week for the Agua Caliente hot springs for an extended stay. Mr. Burke has been very miserable for some time past and it is to be hoped that the springs will do him good.

Felix Mayhew and wife left for Yuma Saturday via Castle Dome. Mrs. Mayhew is on her way for an extended visit to her parents in Casa Grande, Arizona.

Another scheme for saving water is being put into operation by Supt. Gilbert who is ever on the alert to further the interest of the company.

Two tunnels are being run under each of the big cyanide settling tanks. A track and car are to be placed into these tunnels and the tanks thus emptied of their worthless contents in a dry state, saving the quantity of water that is now being used to carry the tailings off through sluices in the bottom of the tanks.

Mrs. Horton of Los Angeles is visiting with her daughter, Mrs. Alex. McBeth.

There was a very bad case of insubordination in camp Friday when one of the high officials tried to perpetrate a fine practical joke on a subordinate. But from an attempt to do the thing up too brown the joker and jokee got mixed, and the laugh which was a full grown one, was enjoyed by at least two-thirds of the population, (the would-be joker having taken particular pains to inform others of what he was going to do,) turned on the wrong man. The perpetrator has been looking for the man who "peached" but he won't find him. We are waiting to see the poor subordinate fired and then get licked, or at least the latter, because he should not be shrewd enough to see a hole in a ladder.

Moral.—Get up early if you want to get ahead of the son of a Hebrew.

Judge Baker and Walter Bennett, the well-known law firm of Baker & Bennett, of Phoenix, are in attendance upon district court. They have been retained to defend Alexander and Miller, who are to be tried at the present term for the murder of Mrs. Burns. The case came up today on a motion by defense for a change of venue and the motion was denied. The case is on trial as we go to press.

Desert Land, Final Proof—Notice for Publication.

United States Land Office,
Tucson, Arizona,
March 4, 1901.

Notice is hereby given that Melville Greenleaf, of Yuma, Yuma county, Arizona, has filed notice of intention to make proof on his desert-land claim No. 2877 for the S½ Sec 15, T 10, S R 24 W., G & S R B & M., before the Register and Receiver at Tucson, Arizona, on Thursday, the eleventh day of April, 1901.

He names the following witnesses to prove the complete irrigation and reclamation of said land:

Gus Livingston,
Walter Webster,
Albert P. Behan, and
Charles R. Hood, all of Yuma, Arizona.

MILTON R. MOORE, Register.

First Publication March 6, 1901.
